

Every work on the chain:
Motor switch is off!

Motorcyclist Chain Wear Gauge

Extra cost: € 89.90 (Stretching device)
Requested 20 kp test load adjustable.
If you don't have the device, see →

1

 Prüflast einstellen
 Setting the test load
 Réglage du charge d'essai
 Impostazione del carico di prova
 Configuración del la carga de prueba

2 a

Create tension...

Plastic pin included.

2 b

...shift a gear to
hold the tention.

3

Position der Magnet Tastfläche
 Magnetic sensing surface position
 Position de la surface de détection magnétique
 Posizione della superficie di rilevamento magnetico
 Posición de la superficie de detección magnética

4

Messbolzen in die Mitte drehen
 Turn the measuring pin in the middle
 Tournez la broche de mesure au milieu
 Ruota il perno di misurazione al centro
 Gire el pasador de medición en el medio.
